

VSB 41

Advanced Driver Assistance Systems Calibration Qualification

Course Category:	Vehicle Systems Body
Level:	2
Duration:	2 days F2F or Online

IMI Level 2 Award in Advanced Driver Assistance Systems (ADAS) Calibration

Course Overview:

This course is designed for vehicle technicians and body repair workshops who are working on ADAS equipped vehicles. The course will contain information on the various different systems fitted. Trainees will have the opportunity to carry out the calibration of different ADAS sensors, using the Bosch DAS 3000. The qualification consists of both a practical & online multiple choice assessment.

Course Content:

Face to Face:

- Day 1: All content (as listed below)
- Day 2: IMI Level 2 practical & online knowledge assessment

Or Online Blended Learning:

- Module 1 (Online): Workshop set up, wheel alignment
- Module 2 (Online): ADAS Code of Practice, use of the Bosch KTS, ESi, ADAS set up & positioning software programs
- Module 3 (Online): Practical tasks featuring DAS 3000, PPE, VPE, Best Practice & assessment preview
- Module 4 (F2F): IMI Level 2 practical & online knowledge assessment

Prerequisites:

Trainees must submit an IMI Candidate Registration Form. A knowledge of wheel alignment (VSC 28) & diagnostic scan tools would be beneficial.

Attainment:

IMI Level 2 Award in Advanced Driver Assistance Systems (ADAS) Calibration

Delivery Method:

This course is available as either a 2 day face to face (F2F) or as three, 2 hour online modules (virtual classroom) plus ½ day assessment.
