

Level 1 Award in Advanced Driver Assistance Systems (ADAS) Awareness

Part Number: WPTPMAADASL1

Duration: 1 day

Pro-Tech MOT & Automotive Academy offer Diagnostic training delivered by our Technical Trainers who have extensive knowledge of the Automotive Industry. We offer this training in our fully equipped Calibration and Training Centre, to give your existing technicians & other staff the significant core knowledge on ADAS Systems.

This 1 day course is designed to provide learners with an introduction to the knowledge of safe working practices, the dangers surrounding it and the precautions required to avoid potential injuries/accidents.

The content of this qualification has been designed to give the learners the knowledge required to work safely around vehicles containing ADAS technology. It contains one mandatory unit covering:

- The types of ADAS systems and sensors available and Health, Safety and legal requirements
- The basic interaction between ADAS systems associated with vehicle powertrain, steering and braking systems
- The potential impact on the correct operation of vehicles fitted with ADAS systems by inappropriate actions of individuals
- The appropriate action to take should damage be caused to an ADAS system or components

Entry Requirements for the Award in Advanced Driver Assistance Systems Awareness:

There are no formal entry requirements for this qualification and Learners are not expected to have any prior knowledge or experience, however, an interest in the subject area is advisable.
